

# Local Relations team organizes Ahmadi Artisanal Market

The Local Relations Team organized the second edition of Ahmadi Artisanal Market, with the aim of supporting local crafts and agricultural products and connecting with artisans, farmers, and small entrepreneurs.

The event was organized for one day in the presence of TL Local Relations Khaled Al-Falakawi.

36 exhibitors participated in the Market, which was held at Ahmadi Park; including the Roads and Support Team, which distributed seedlings and seeds to visitors, and the Public Authority of Agriculture Affairs and Fish Resources.

Products offered by local vendors varied; from honey, to fresh organic fruits and vegetables, oils and soap, and a number of local goods.

The market also included corners for embroidery art, wooden sculptures, and pottery making.

It is worth noting that investing in local products not only helps boost our economy, but is also an environmentally conscious choice, as it reduces the waste resulting from importing goods.
